The Symposium is an ideal platform for leading researchers, scientists, engineers and industry associates to discuss and share their research results, ideas and experiences on fundamental and industrial aspects of High Temperature Processing.

**Keynote Speakers**
TBA

**Extended Abstract and Full Paper Submission**
Experts are invited to submit either extended abstracts or full papers. The full paper will undergo peer-review. Presentations on industrial trials, results and perspectives are also welcome. Extended abstracts and papers from PhD students active in the area will also be accepted. Topics of interest for submission include, but are not limited to:
- Iron and steelmaking
- Aluminium production and refining
- Non-ferrous pyrometallurgy
- High temperature routes for new materials
- Liquid metal handling
- High temperature recycling operations
- Materials sustainability and resource efficiency
- New furnace technology (including solar)

We look forward to seeing you in February 2016.

Prof Geoff Brooks (Co-Chairman HTPS 2016)
A/Prof Akbar Rhamdhani (Co-Chairman HTPS 2016)
